 Past Meetings.....30

INTRODUCTION

This publication brings the index of paper presented at the annual meetings of the Utah Mosquito Abatement Association up to and including the annual meeting of 1999; Vol. 52. The previous Index included Volumes 1-32 for the years 1948-1979. Papers given for the years 1980 and 1984 are not included. The papers for the 1980 meeting were published by the American Mosquito Control Association as a result of that year's joint meeting with the UMAA. The 1984 meeting was held jointly with the Society of Vector Ecology (SOVE) who published the papers given at that meeting.

This Index includes not only the papers given during the period indicated but also includes an Appendix which includes all past awards, all past presidents and a list of all meetings from 1948-1999.
